## **HATCO® CORPORATION NEWS RELEASE**

### **Stay Cool and Fresh with Hatco Drop-In Slim Ice Wells**

Milwaukee, WI (May 17, 2016) – Keep your cold food offerings in the perfect chill zone for serving with Hatco® Corporation's Drop-In Slim Ice Wells.

The Drop-In Slim Ice Well is an ice-cooled, full-size unit - available with 1- to 4-pan configurations – that holds pre-chilled foods at safe-serving temperatures without any refrigeration or electrical components. Because the food pans are placed in a lengthwise, narrow grouping in the Drop-In Slim Ice Well, customers have an easy reach to the food products, even if it is protected with Sneeze Guards, making it the perfect choice for salad bars, cold buffets and chilled beverage bars.

The Drop-In Slim Ice Well includes a variety of features that will prove to be beneficial for your foodservice operation. The IWB-S has a unique top angled bezel design that allows cold air to be circulated, effectively blanketing the ice inside the well. Optimal and environmentally-friendly insulation on the sides and bottom of the well provide even chilling from top to bottom and ensure better cold retention and cost savings. The Drop-In Slim Ice Well also has a larger 1" brass drain with a flat screen to simplify cleaning.

A perforated false bottom accessory conveniently holds ice above the drain for ease of draining, while an optional Slant Kit gives the Drop-In Slim Ice Well a 5° tilt that provides easier access to and improved visibility of the food products. Additional accessories are available, as well.

For additional information on Hatco Drop-In Slim Ice Wells and other equipment, contact your Hatco sales representative or visit the Hatco website at <http://www.hatcocorp.com>.

###

Hatco Corporation is a Milwaukee, Wisconsin-based, employee-owned company with a history of over 65 years of excellence in the quality design, production and servicing of holding, warming and, since 2009, cooling equipment. Today, Hatco now has the versatile and innovative Drop-In Hot/Cold Wells and Hot/Cold Built-In Shelves, incorporating the legendary Hatco quality of warming and cooling into one unit.
