HATCO® CORPORATION NEWS RELEASE

Rapide Cuisine® Induction Ranges Take Induction Cooking to the Next Level

Milwaukee, WI (Nov. 11, 2016) – Hatco® Corporation is proudly introducing its line of sleek, modern, low-profile Rapide Cuisine® induction ranges to raise the bar in terms of specification, quality and performance.

Designed and built for the durability and performance of commercial foodservice use, the Rapide Cuisine ranges are constructed of black ceramic glass and stainless steel to handle the rigors of back-of-the-house cooking and prep areas, as well as buffet lines and other front-of-the-house display cooking applications. There are two types of Rapide Cuisine ranges available to suit operator needs and working environments – heavy-duty (“H”) and programmable (“P”) – with countertop and built-in versions available, as well.

The IRNG utilizes a Magnetic Power System (MPS) for producing the highest power possible and has many great features, including an energy-saving automatic shut-off to prevent overheating and Pan Sense Technology (PST) to turn on the range only when a compatible pan on top of the unit is detected. Easy-to-use power and temperature controls plus a timer are available, depending on the model. All Rapide Cuisine ranges feature a high resolution TFT color display that communicates precise power and timer settings. The “P” model also features a programmable mode to create up to six preset cooking and product settings, making the Rapide Cuisine unlike any other induction unit out there.

For additional information on Hatco Rapide Cuisine® induction ranges and other equipment, contact your Hatco sales representative or visit the Hatco website at <http://www.hatcocorp.com>.

###

From the corporate offices in Milwaukee to the state-of-the-art manufacturing facility in Sturgeon Bay, Wis., Hatco Corporation is a proud employee-owned company. Hatco has a history of over 65 years of excellence in the quality design, production and servicing of warming, toasting, holding, cooking and cooling equipment.
