## **HATCO® CORPORATION NEWS RELEASE**

### **Hatco's Intelligent Toast-Qwik® Narrow Conveyor Toaster Is the Smartest Toaster Around**

Milwaukee, WI (Jan. 16, 2017) – Hatco® Corporation is presenting the new Intelligent Toast-Qwik® Narrow Conveyor Toaster to its award-winning Conveyor Toaster line.

The Intelligent Toast-Qwik is fast, reliable and extremely versatile, with the ability to toast multiple bread products, as well as melt cheese and finish smaller food products, at the touch of a button. The narrow design allows for continuous single-slice toasting and for the unit to fit into smaller areas, conserving countertop space.

Easily operable with four different toasting modes, the narrow ITQ provides energy efficiency and cost savings with Spot-On® Technology, which allows the toaster to sense when a product is placed on the conveyor belt to activate the unit, and a Power Save mode. Hatco's exclusive ColorGuard Sensing System monitors and adjusts conveyor speed during peak periods to ensure toast color uniformity.

The Intelligent Toast-Qwik also has a programmable touchpad that can hold up to 18 product settings, with a USB port located on the front for easy transfer of product information, to help you get smart about your toasting needs.

For additional information on the Hatco Intelligent Toast-Qwik® Narrow Conveyor Toaster and other equipment, contact your Hatco sales representative or visit the Hatco website at <http://www.hatcocorp.com>.

###

From the corporate offices in Milwaukee to the state-of-the-art manufacturing facility in Sturgeon Bay, Wis., Hatco Corporation is a proud employee-owned company. Hatco has a history of over 65 years of excellence in the quality design, production and servicing of warming, toasting, holding, cooking and cooling equipment. Today, Hatco has introduced the versatile Hot/Cold Built-In Shelves and Rapide Cuisine® Induction Ranges into its extensive line of innovative foodservice equipment.
