HATCO® CORPORATION NEWS RELEASE

Upscale Your Offerings with Glo-Rite® Curved Display Lights

Milwaukee, WI (Apr. 1, 2017) – Hatco® Corporation is introducing the Glo-Rite® Curved Display Lights as the stylish equipment solution for enhancing and adding sophistication to your serving areas.

This new line of display lights features a patented curved design and offers LED lighting for the highest light output ideal for illuminating food products. The sleek housing is unobtrusive, using a small footprint and allowing greater visibility of the food below.

The energy-efficient dual LED lights guarantee longer performance and deliver significant savings with lower energy consumption and greater reliability – compared to standard incandescent bulbs. The HL5 models use either a warm white light (3050K), or a cool or neutral white light (4100K) for improved light coverage.

The Glo-Rite Curved Display Lights are available in many lengths and in all of Hatco's *Designer* colors and Gloss finishes Gleaming Gold, Glossy Gray, Bold Black, Radiant Red and Brilliant Blue (standard Clear Anodized) to match your décor. The units match the Hatco line of Glo-Ray® Curved Infrared Strip Heaters for a fully integrated look in your operation.

For additional information on the Hatco Glo-Rite® Curved Display Light and other equipment, contact your Hatco sales representative or visit the Hatco website at <http://www.hatcocorp.com>.

###

From the corporate offices in Milwaukee to the state-of-the-art manufacturing facility in Sturgeon Bay, Wis., Hatco Corporation is a proud employee-owned company. Since 1950, Hatco has a history of excellence in the quality design, production and servicing of warming, toasting, holding, cooking, sanitizing and cooling equipment. Today, Hatco has introduced the versatile Hot/Cold Built-In Shelves and Rapide Cuisine® Induction Ranges into its extensive line of innovative foodservice equipment.
