

# HATCO® CORPORATION PRODUCT RELEASE

## Keep It Cool with Hatco's Remote Cold Built-In Shelves

Keep your cold food products in the perfect chill zone for serving with Hatco® Corporation's Cold Built-In Shelves, now available in remote configurations to offer to design flexibility and easy serviceability. The R models include a remote-mounted condensing unit and control panel for installing in more convenient and desirable locations; the X models include only a remote-mounted control panel for increased flexibility. The CSBFR and CSBFX models have a top mounted, hardcoat aluminum surface. The CSUR, CSUX models have an aluminum surface and are designed to be mounted directly against the underside of a granite or quartz countertop. The CSSBR, CSSBX, CSSBFR and CSSBFX models are available in Swanstone® simulated stone colors and are designed to be bottom mounted, flush with the countertop.
