

## HATCO® CORPORATION PRODUCT RELEASE

### Take “Show & Sell” Merchandising to a New Level with Hatco’s Flav-R-Savor® Heated Air Curtain Cabinet

Hatco® Corporation is introducing the newest models of the patented Flav-R-Savor® Heated Air Curtain Cabinet, which effectively and safely keeps foods at ideal serving temperatures without the use of doors, giving customers easy access to fresh, hot products. Heated air at the front of the cabinet is forced downward, forming a “curtain” to warm each shelf gently and evenly. The FS3HAC features removable slanted or horizontal shelves, with removable sign holders on each. Balanced LED lighting showcases the food products inside, while a *Designer* Black finish complements any décor. The cabinet also includes easy-to-use digital controls, removable glass sides and a removable crumb tray. The FS3HAC-3626 model has a flip-up rear door and the FS3HAC-4226 model has removable sliding rear doors.
