

## HATCO® CORPORATION PRODUCT RELEASE

### Get Your Waffle on with Hatco Corporation

Hatco® Corporation has teamed up with Suntec Corporation to create Waffle Makers designed for continuous, everyday use. Featuring an exclusive heating element design that delivers high productivity and consistent results, the RWM makes evenly cooked and deliciously perfect waffles in minutes. With adjustable time and temperature, operators can easily "dial in" the perfect cooking profile for their particular operation or use different batters to expand menu offerings. A simple push button control panel with an LED display shows timer, temperature and status information, while a beeper signals the end of a cooking cycle. Standard cooking plates deliver 7" (178 mm) diameter, 5/8" (16 mm) thick waffles; the Belgian-style cooking plates deliver 7" (178 mm), 1" (25 mm) thick waffles.
