HATCO® CORPORATION NEWS RELEASE

Expand Menu Offerings with the Hatco Snack System

Milwaukee, WI (May 17, 2019) – Hatco® Corporation has teamed up with Suntec Corporation to create the Snack System, which will add menu variety and increase sales according to the season, time of day and location.

With a single or dual electric baker, operators can use the one-touch release with latch opener to easily switch the Snack System's replaceable plates to serve breakfast items, lunch foods and a variety of snacks in between. Adjustable time and temperature controls allow for multiple menu options, so you can freshly bake as many or as few items as you need – resulting in no waste at the end of the day. The unit's compact design makes it suitable for any location.

The Snack System comes with standard round Belgian waffle plates and an additional set of plates of your choosing: freestyle, coffee bean, sandwich, panini, donut or chelky. All plates are easily cleaned with warm, soapy water.

For additional information on the Hatco Snack System and other equipment, contact your Hatco sales representative or visit the Hatco website at <https://www.hatcocorp.com>.

###

From the corporate offices in Milwaukee to the state-of-the-art manufacturing facility in Sturgeon Bay, Wis., Hatco Corporation is a proud employee-owned company. Since 1950, Hatco has a history of excellence in the quality design, production and servicing of warming, toasting, holding, cooking, sanitizing and cooling equipment. Today, Hatco has introduced the Intelligent Heated Display Cabinets and Palletti™ Induction Warmers into its extensive line of innovative foodservice equipment.
