HATCO® CORPORATION NEWS RELEASE

Precisely Hold a Wider Variety of Food with Hatco's Drawer Warmers

Milwaukee, WI (Dec. 20, 2019) – Hatco® Corporation is extending its line of best in class Drawer Warmers with the new HDWTC Drawer Warmer, designed to keep a variety of foods hot and flavor-fresh for serving.

The HDWTC models include a top-of-the-drawer touchscreen control panel – which is positioned at an angle for greater visibility – that allows for precise individual temperature settings for each drawer, and features an adjustable timer per drawer with both audio and visual alert to remind operators about the holding times set. A USB port is also included for easy software updates.

The HDWTC has completely insulated individual cavities that provide maximum energy efficiency, while Hatco-exclusive nylon rollers allow for the heavy-duty drawers to easily slide in and out. Each warming drawer can accommodate varying pan configurations and has adjustable vent slides to allow for different moisture levels.

For additional information on the Hatco Drawer Warmers and other equipment, contact your Hatco sales representative or visit the Hatco website at <https://www.hatcocorp.com>.

###

From the corporate offices in Milwaukee to the state-of-the-art manufacturing facility in Sturgeon Bay, Wis., Hatco Corporation is a proud employee-owned company. Since 1950, Hatco has a history of excellence in the quality design, production and servicing of warming, toasting, holding, cooking, sanitizing and cooling equipment. Today, Hatco has introduced the Snack System and Electric Waffle Makers into its extensive line of innovative foodservice equipment.
