

HATCO® CORPORATION PRODUCT RELEASE

Precisely Hold a Wider Variety of Food with Hatco's Drawer Warmers

Hatco® Corporation is extending its line of best in class Drawer Warmers with the new HDWTC Drawer Warmer. The HDWTC models include a top-of-the-drawer touchscreen control panel – which is positioned at an angle for greater visibility – that allows for precise individual temperature settings for each drawer, and features an adjustable timer per drawer with both audio and visual alert to remind operators about the holding times set. A USB port is also included for easy software updates. The HDWTC has completely insulated individual cavities that provide maximum energy efficiency, while Hatco-exclusive nylon rollers allow for the heavy-duty drawers to easily slide in and out. Each warming drawer can accommodate varying pan configurations and has adjustable vent slides to allow for different moisture levels.
