HATCO® CORPORATION NEWS RELEASE

Increase Holding Capacities and Impulse Sales with Glo-Ray® Heated Glass Merchandising Warmers

Milwaukee, WI (Jan. 14, 2020) – Hatco® Corporation's Glo-Ray® Heated Glass Merchandising Warmers are the perfect solution for enticing customers with a full-view display of appetizing hot food products right at their fingertips.

These merchandising warmers feature two heat sources to hold hot wrapped or boxed foods at optimum serving temperatures while maintaining product quality. Blanket-style heating elements in the hardcoated base and canopy are thermostatically controlled, while a unique patented heated glass technology radiates heat down while conducting heat up for even heating.

The GR3SDS features a curved top design, tempered glass side panels, LED display lights and a sign holder on the upper canopy. Models are available with dual or triple shelving and in all *Designer* colors and Gloss finish Glossy Gray to match your décor.

For additional information on the Hatco Glo-Ray Heated Glass Merchandising Warmers and other equipment, contact your Hatco sales representative or visit the Hatco website at <https://www.hatcocorp.com>.

###

From the corporate offices in Milwaukee to the state-of-the-art manufacturing facility in Sturgeon Bay, Wis., Hatco Corporation is a proud employee-owned company. Since 1950, Hatco has a history of excellence in the quality design, production and servicing of warming, toasting, holding, cooking, sanitizing and cooling equipment. Today, Hatco has introduced the Snack System, Electric Waffle Makers and Electric Crepe Makers into its extensive line of innovative foodservice equipment.
