HATCO® CORPORATION NEWS RELEASE

Get Ahead of Off-Premise Dining with Glo-Ray 2-Go™

Milwaukee, WI (Apr. 15, 2020) – Hatco® Corporation's new Glo-Ray 2-Go™ Heated Shelves are an ideal solution for safely keeping carry-out and delivery orders hot, fresh and ready to eat.

The heated shelves are capable of holding a large quantity of food items for up to 30 minutes with a high temperature range up to 200°F (93 °C). The shelves are 20" (508 mm) deep and 39" (991 mm) wide, large enough for pizza boxes and to-go bags, which easily fit into the 13" (330 mm) clearance of each shelf.

The GRS2G models feature shelves with thermostatically-controlled heated bases, a stainless steel frame, and a touchscreen control, with a digital readout and adjustable alarm volume, that indicates separate heat and timer for each shelf. The cord for the GRS2G is recessed into the bottom shelf at a 45° angle, allowing the unit to be flush against the wall.

The Glo-Ray 2-Go is available with two, three, four or five shelves and in all *Designer* colors to match your décor. Accessory back and/or side panels are also available.

For additional information on the Hatco Glo-Ray 2-Go Heated Shelves and other equipment, contact your Hatco sales representative or visit the Hatco website at <https://www.hatcocorp.com>.

###

From the corporate offices in Milwaukee to the state-of-the-art manufacturing facility in Sturgeon Bay, Wis., Hatco Corporation is a proud employee-owned company. Since 1950, Hatco has a history of excellence in the quality design, production and servicing of warming, toasting, holding, cooking, sanitizing and cooling equipment. Today, Hatco has introduced the Cashier Shield and Hatco®/Krampouz® Electric Waffle Makers into its extensive line of innovative foodservice equipment.
