

HATCO® CORPORATION PRODUCT RELEASE

Get Ahead of Off-Premise Dining with Glo-Ray 2-Go™

Hatco® Corporation's Glo-Ray 2-Go™ Heated Shelves are an ideal solution for safely keeping a large quantity of carry-out and delivery orders hot and ready to eat. The GRS2G models feature shelves with individual thermostatically-controlled heated bases, a stainless steel frame, and a touchscreen control with a digital readout and adjustable alarm volume. The cord for the GRS2G is recessed into the bottom shelf at a 45° angle, allowing the unit to be flush against the wall. The Glo-Ray 2-Go is available with two, three, four or five shelves and in all *Designer* colors to match your décor. Accessory back and/or side panels are also available.
