HATCO® CORPORATION NEWS RELEASE

Create Grab-And-Go Micro Markets with Heated Well Covers

Milwaukee, WI (July 1, 2020) – Hatco® Corporation's new Heated Well Covers establish versatility for hot food bars by converting our Drop-In Modular/Ganged Heated Wells and Drop-In Modular/Ganged Slim Heated Wells into heated shelves.

The accessory cover creates a heated space to hold pre-heated, pre-packaged foods at ideal serving temperatures for customers to grab and go. With this conversion solution, operators can retain self-service sales while keeping customers protected. The covers are designed to sit on top of the modular unit, with the removal of accessory food pans for the most efficiency, and the well must be operated in dry mode for usage.

The 1-pan and 2-pan covers feature a sturdy stainless steel frame and are available in simulated stone colors Night Sky, Gray Granite and Bermuda Sand to match your décor.

For additional information on the Hatco Heated Well Covers and other equipment, contact your Hatco sales representative or visit the Hatco website at <https://www.hatcocorp.com>.

###

From the corporate offices in Milwaukee to the state-of-the-art manufacturing facility in Sturgeon Bay, Wis., Hatco Corporation is a proud employee-owned company. Since 1950, Hatco has a history of excellence in the quality design, production and servicing of warming, toasting, holding, cooking, sanitizing and cooling equipment. Today, Hatco has introduced the Glo-Ray 2-Go™ Heated Shelves and Flav-R 2-Go® Locker System to offer solutions for the growing popularity of the delivery, to-go and grab-and-go markets.
