

## PRODUCT RELEASE

# Hatco's Flav-R 2-Go® Pizza Locker System Changes the Carry-Out Pizza Game

Hatco® Corporation is proud to introduce the new Flav-R 2-Go® Pizza Locker System. The pizza lockers conveniently hold multiple hot and ambient pizza orders for up to 45 minutes with quick and secure access. The locker system features a touchscreen on the operator side and the customer side. The operator inputs the customer's name and code for their order; the customer receives the code, enters it, and the appropriate door unlocks. An optional QR code reader is available, as well. The Flav-R 2-Go is available as a built-in, countertop or floor mount model and in all *Designer* colors to match your décor. The F2GP and F2GBP models come standard with manual operation; POS integration capabilities are available with outside vendor setup.
