## **HATCO® CORPORATION NEWS RELEASE**

### **With Touchscreen Controls, Hatco's Drawer Warmers Hold It All**

Milwaukee, WI (Feb. 1, 2019) – Hatco® Corporation's Drawer Warmers are designed to keep a variety of foods – from meats to vegetables to rolls and more – hot and flavor-fresh until served.

Now available with the Drawer Warmers is an optional touchscreen control panel. The control panel allows for precise individual temperature settings for each drawer, and features an adjustable timer per drawer with both audio and visual alert to remind operators about the holding times set. A USB port is also available for software updates. The optional touchscreen control is available for the freestanding, built-in and narrow models.

The HDW has completely insulated individual cavities that provide maximum energy efficiency, while Hatco-exclusive nylon rollers allow for the heavy-duty drawers to easily slide in and out. Each warming drawer includes a food pan, a recessed individual thermostatic control, a temperature monitor, adjustable vent slides and a power On/Off switch. The drawer fronts are available in standard Stainless Steel and all *Designer* colors so you can color code your food items and match your décor.

For additional information on the Hatco Drawer Warmers and other equipment, contact your Hatco sales representative or visit the Hatco website at <https://www.hatcocorp.com>.

###

From the corporate offices in Milwaukee to the state-of-the-art manufacturing facility in Sturgeon Bay, Wis., Hatco Corporation is a proud employee-owned company. Since 1950, Hatco has a history of excellence in the quality design, production and servicing of warming, toasting, holding, cooking, sanitizing and cooling equipment. Today, Hatco has introduced the Intelligent Heated Display Cabinets and Palletti™ Induction Warmers into its extensive line of innovative foodservice equipment.
