

HATCO® CORPORATION PRODUCT RELEASE

With Touchscreen Controls, Hatco's Drawer Warmers Hold It All

Hatco® Corporation's Drawer Warmers, designed to keep a variety of foods hot and flavor-fresh, now have an optional touchscreen control panel available. The control panel allows for precise individual temperature settings for each drawer, and features an adjustable timer per drawer with audio and visual alert to remind operators about the holding times set. A USB port is also available for software updates. The HDW has completely insulated individual cavities that provide maximum energy efficiency, while Hatco-exclusive nylon rollers allow for the heavy-duty drawers to easily slide in and out. Each warming drawer includes a food pan, a recessed individual thermostatic control, a temperature monitor, adjustable vent slides and a power On/Off switch. Drawer fronts are available in standard Stainless Steel and all *Designer* colors.
