Hatco® Corporation Launches New Retractable Decorative Lamp

Milwaukee, WI – November 2023 – Hatco® Corporation has released a new retractable cord mount option for its award-winning Decorative Lamp line.

The retractable cord mount features a lower profile cord with no steel cable, in comparison to the coiled retractable mount. The new retractable mount is easily adjustable, has more precise set points, and guarantees smooth operation and improved reliability. It is available with three power switch options (lower, remote, and none) and 15 trendy shade styles (not available with the 2100, 2200, 2300, and 2400 shades).

Decorative Lamps provide the two-fold benefits of brief foodwarming and attractive presentation; configurations for display lighting only are available, as well. With up to 19 shade styles, 20 colors and finishes, four switch options and now ten mounting arrangements to choose from, operators can mix and match the various combinations available to create the perfect lamp for their establishments.

To virtually build a Decorative Lamp, visit the Hatco website at <https://www.hatcocorp.com>, click **Configurators** under the Resources, and click the 'Build a Lamp' link for the Decorative Lamp Configurator to launch.

Models are available in 120V or 240V and in three wattages: luminaire (100W DLL models), standard watt (250W DL models), and high watt (375W DLH models). For additional information on Decorative Lamps and other equipment, contact your Hatco sales representative or visit the Hatco website at <https://www.hatcocorp.com>.
