

## CANADIAN FOODSERVICE EQUIPMENT - SUPPLEMENTAL PRICE LIST

### Flav-R 2-Go® Built-In Outdoor Locker System

Boost efficiency and elevate the pickup experience with the Hatco Flav-R 2-Go® Built-In Outdoor Locker System. Featuring separate lockers for interior loading and exterior pickup, this innovative solution keeps orders moving and operations flowing. It streamlines order handoff by keeping ambient or hot meals secure, organized and ready for pickup. Staff load orders directly from the kitchen, while customers and delivery drivers pick them up outside — quickly, contact-free and without stepping indoors.

- Front and back lockers are sold separately for flexible pricing and installation options, and are designed to seamlessly join together to form a complete locker system
- Available in configurations of 7 or 11 cubbies to suit your needs
- Ambient holding is standard. Heated operation is available for F2GBOB models (interior operator side) only; heated models include individual thermostatic temperature controls for each cubby and support a temperature range from ambient to 200°F (93°C)
- Customer-facing touchscreen is rated for outdoor use, featuring a brighter display, thicker glass and anti-glare film
- 10" (257 mm) touchscreens on both customer and operator sides allow for quick, easy access
- Flashing LED lights will indicate the correct cubby for order pickup
- F2GBOF models (exterior customer side) feature insulated front doors, which shield against outdoor elements and maintain optimum temperatures in each cubby
- F2GBOB models (interior operator side) feature optional screen-printed glass doors for added privacy
- Adjustable mounting flanges accommodate wall thicknesses from 2" to 10" (51 to 254 mm)
- Heavy-duty outdoor-rated rotary latches, designed to meet IP65 rating, secure each cubby individually

## Optional Dekton® Ultracompact Stone Surfaces for Hot/Cold Built-In Simulated Stone Shelves

Hatco's HCSSBR and HCSSBX Hot/Cold Built-In Simulated Stone Shelves not only easily transition between heated and cold shelves, but now include Dekton® stone as an optional surface. The optional Dekton surface comes in three stone colors: Domoos, Rem and Soke\*.

Dekton® is a sophisticated mixture of over twenty minerals extracted from nature, resistant to scratches and impact. Dekton® stone can withstand abrasion better than granite or porcelain. The sintering and compression techniques used to manufacture Dekton® make it completely non-porous and resistant to water and stains, which can be removed easily with standard cleaning products.

\*Due to the natural texture, patterns will vary.

- A carbon neutral product
- Abrasion, impact, scratch and heat resistant
- Contains a non-porous surface, making it water and stain resistant
- Available in Rem, Soke and Domoos

**DEKTON**®  
designed by COSENTINO®

**Dekton® stone surfaces are now available for use on these models:**

## Panini Grill

The Hatco® Panini Grill will help expand your menu and your sales. Available with a grooved, flat or combination of both surfaces to accommodate all of your grilling needs. Perfect for making anything from sandwiches and quesadillas to chicken and steak. Basically anything that can be grilled can be done right on your countertop without having to have a dedicated grill space. Digital control for both time and temperature help lend to the ease of use. A great addition to any kitchen set up.

- Adjustable time/temperature controls enable operators to cook continuous, consistent quality products
- Exclusive heating elements provide exceptional heat distribution throughout the entire cooking plate, ensuring even cooking of each product
- Compact design is suitable for any location and stainless steel frame provides durability and easy cleaning
- Comes with a scraper and removable crumb tray for easy clean up between uses
- Can use on products up to 3" thick
- Maximum temperature of 500°
- Comes with a scraper and removable grease trough for easy clean up between uses
- Convenient handles on either side of unit make it easy to move from one location to another

## Induction Griddle

Built to withstand the rigorous demands of commercial foodservice kitchens, Hatco's heavy-duty Induction Griddle is the ultimate countertop workhorse. This versatile unit delivers exceptional performance across a wide range of menu items — from fluffy pancakes to juicy burgers and more — with a durable, polished steel surface designed for high-volume use. It also includes a wide grease trough, an oversized drain, and a removable grease pan to ensure hassle-free cleanup. This griddle is a must-have for any operation looking to combine efficiency, durability and precision cooking.

- Cooktop reaches 350°F (177°C) in 12 minutes, with a maximum cooking temperature of 550°F (288°C)
- Power Save Mode maintains a lower, user-set temperature to reduce energy use without shutting off the unit
- 12 induction coils deliver consistent, even heat distribution across the entire cooking surface
- Two independently controlled heat zones, each with four temperature sensors, ensure responsive and reliable temperature management
- Each heat zone features a digital readout and control knob for 1° adjustments, offering precise control to reach and maintain desired cooking temperatures

## Flav-R-Savor® Refrigerated Air Curtain Merchandiser

The Hatco Flav-R-Savor® Air Curtain Merchandiser is the ultimate solution for showcasing fresh, cold products while driving impulse sales. Designed for high-end merchandising, this sleek countertop unit offers easy accessibility and optimal temperature control. With even air distribution and superior product visibility, it not only preserves product freshness but also enhances the appeal of packaged foods and cold beverages — perfect for boosting profits and elevating foodservice offerings.

- Product temperature range between 31°F to 41°F (-1°C to 5°C)
- Simple, intuitive digital controls
- 3500K LED lights on the top, front and sides create balanced lighting that highlights food products and beverages
- Includes one adjustable, removable 13" (330 mm) deep shelf
- Doorless design allows for immediate access to products, prevents the spread of germs, and eliminates the need to wipe down handles and doors
- Swing-out, left-hinged rear door allows for loading the unit without blocking customer access
- Sleek black textured exterior with insulated glass end panels
- Uses eco-friendly R-290 refrigerant
- Comes standard with a night shade to conserve energy when unit is not in use and a magnetically attached sign holder [Sign dimensions: 23.875" W x 3.5" H x .25" D (606 x 89 x 6 mm)]
- Equipped with 4" (102 mm) legs and a 6' (1829 mm) cord and plug

**FS3RAC-2726**
