Intelligent Heated Display Cabinet with Humidity
Models: IHDCH-28, -45

Hatco’s Intelligent Heated Display Cabinet with Humidity is the perfect way to showcase your pizzas and more. Regulating air temperature while at the same time balancing the humidity level provides the best environment for food products. With 360° viewing, and LED lighting, your food is guaranteed to get all the attention.

Standard features
• The IHDCH-28, our NEW half-size cabinet, has an option for a full door in the front, allowing self-service for customers
• Air flow pattern is designed to maintain consistent cabinet temperature without drying out food
• Air flow system enables the cabinet to recover temperature rapidly after opening and closing a door
• LCD touchscreen display on back of unit controls temperature, humidity and up to eight timers for each food location
• USB port in back of unit makes it easy to establish standard, pre-programmed settings for consistency and reliability
• Adjustable arms or shelves (IHDCH-28 only) can move up and down the back supports
  - IHDCH-28 unit can hold up to three shelves, three support arms, or a combination
  - IHDCH-45 unit can hold up to six pizza arms
• Arms
  - IHDCH-28 will hold a maximum 22" (558 mm) pizza pan
  - IHDCH-45 diameter can open up to 19.5" (495 mm) and can hold up to 8.5 lbs. (365 kg)
• Energy efficient LED lighting illuminates food display
• Lighted Power On/Off (I/O) switch
• Stainless steel construction and stainless steel finish

CORD LOCATION
Servers side, lower left corner.

PLUG CONFIGURATIONS
NEMA 6-20P

WATER QUALITY REQUIREMENTS
Incoming water in excess of 3.0 grains of hardness per gallon (GPG) (.75 grains of hardness per liter) must be treated and softened before being supplied to unit(s). Water containing over 3.0 GPG (.75 GPL) will decrease the efficiency and reduce the operating life of the unit.

Note: Product failure caused by liming or sediment buildup is not covered under warranty.

A water strainer, water filter and 15 feet of plastic tubing is included with the unit to install on the water supply line before it enters the unit.
